HOW TO MAKE YOUR CARD HOLDER

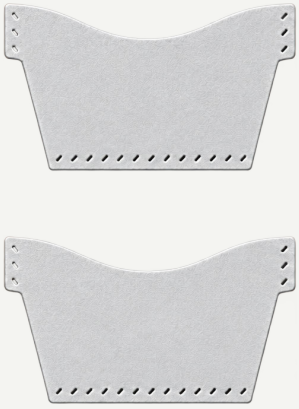

Make your own leather card holder using six precut panels.
Stitch the inner pockets first, then sew the outer edges.

Assembly Pieces

2x Back Pieces

2x Inner Pocket Pieces

2x Front Pocket Pieces

Before you start

Cut thread about five times the seam length, with a needle on each end. Centre the thread in the first hole. Pass both needles through each next hole from opposite sides, one at a time, then pull snug.

1 - Stitch inner pockets

Lay a silver inner pocket on a brown back piece, with the wave at the top. Match the holes and saddle stitch only the straight bottom row. Backstitch twice to secure, then trim the thread ends neatly. Repeat for the second pocket.

2 - Stitch outer edges

Lay a brown front pocket over each silver pocket and line up the holes. Bring the two halves together back to back, with the leather faces outwards. Work down one side, across the bottom and up the other, through every layer with a hole. Leave the top and all pocket openings open. Backstitch twice and trim the thread ends neatly.

SQUARESOFLEATHER.COM/CARD-HOLDER

Not suitable for children under 12. Contains sharp needles and small parts. Risk of puncture injury and choking. Children must be directly supervised by a responsible adult.

Read and follow the instructions before use. Keep the kit, loose parts and packaging away from young children and pets. Store needles securely whenever not in use. Do not use damaged components.
